

ARI WASH OUT BIN

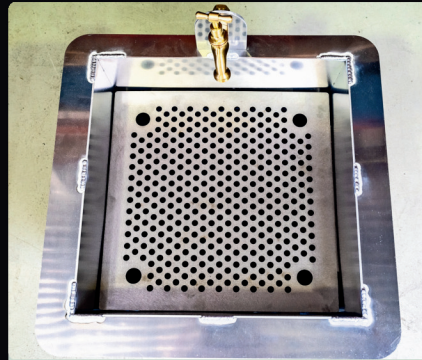

**EASY EQUIPMENT CLEANING
FOR PLASTERERS, PAINTERS
AND TILERS**

A cost effective & easy to use solution to wash off equipment and prevent unwanted waste & sediment entering drains.

Portable wash solutions

- Cleaning and washing equipment on site is easy with the ARI Wash Out Bin.
- The ARI wash out bins can be directly plumbed in directly or used as a portable solution for any sized construction site.

Prevent waste entering drains

- Water is filtered through the cutting edge ARI material filtering to 63 microns.
- This prevents harmful waste and sediment entering drainage systems and DWV pipes, causing blockages and costly repairs.

Easy to install & maintain

- The ARI Wash Out Bin is low maintenance and easy to clean and empty.
- When the filter inserts are full, they can be cleaned and reused or replaced depending on use.
